ABOUT ME

Computer Science & Engineering graduate from UBT with hands-on experience building full-stack web applications using C#/ASP.NET Core, Java/Spring Boot, React, SQL Server, and REST APIs. Passionate about designing scalable, maintainable software using Clean Architecture and modern software engineering practices. Through academic and personal projects, I've implemented authentication, database design, testing, and production-oriented backend features while developing a strong foundation in full-stack development. I'm eager to begin my career as a Software Engineer , where I can continue learning, contribute to real-world products, and grow alongside experienced teams.

WORK EXPERIENCE

Personal Project - Healthcare Appointment System

City: Prishtine | **Country:** Kosovo

Link: <https://github.com/FlorentLatifi/Healthcare-Appointment-Notification-System.git>

[01/11/2025 - 08/03/2026]

Software developer

Developed backend services for managing doctor appointments and scheduling logic using ASP.NET Core.

Implemented notification handling and patient data management.

Applied modular architecture and separation of concerns for maintainability.

Personal Project - EcoKosova

City: Prishtine | **Country:** Kosovo

Link: <https://github.com/FlorentLatifi/eEcoKosova.git>

[10/10/2025 - 24/02/2026]

Software developer

Developed a full-stack web application for real-time waste monitoring using Spring Boot, React, and SQL.

Designed and implemented RESTful APIs for data ingestion and management.

Built interactive dashboards for real-time data visualization and analytics.

Designed a normalized relational database schema for scalable data storage.

Personal Project - Freelance Marketplace

City: Prishtine | **Country:** Kosovo

[01/03/2025 - 10/09/2025]

Software developer

A full-featured freelance platform built with modern technologies. Clients post projects

and hire talent, freelancers discover work and deliver through structured contracts & milestones, and administrators have powerful tools for catalog management, data import/export, reporting, auditing, and moderation.

Personal Project - Fligh Booking System

City: Prishtine | **Country:** Kosovo

Link: <https://github.com/FlorentLatifi/FlightBookingSystem.git>

[01/04/2025 - 25/07/2026]

Software developer

Designed and built a solo flight-reservation web app using ASP.NET Core MVC and Onion (Clean) Architecture, separating Domain, Application, Infrastructure, and Web layers.

- Applied the Strategy pattern for dynamic ticket pricing and the Observer pattern for parallel email/SMS notifications (async with Task.WhenAll), with the Repository pattern over EF Core.

EDUCATION & TRAINING

[01/10/2023 - Current]

Bachelor of Science in Computer Science and Engineering

UBT – University for Business and Technology <https://www.ubt-uni.net/en/home/>

City: Prishtinë | **Country:** Kosovo | **Field(s) of study:** Software and applications development and analysis | **Level in EQF:** 6

[01/09/2019 - 01/06/2023]

General High School Diploma

Sezai Surroi High School

City: Bujanoc | **Country:** Serbia | **Field(s) of study:** Generic programmes and qualifications | **Level in EQF:** 4

LANGUAGE SKILLS

Mother tongue(s): Albanian

Other language(s):

English

LISTENING: B2 **READING:** B2 **WRITING:** B1

SPOKEN PRODUCTION: B1 **SPOKEN INTERACTION:** B1

Serbian

LISTENING: B1 **READING:** B1 **WRITING:** B1

SPOKEN PRODUCTION: B1 **SPOKEN INTERACTION:** B1

SKILLS

Programming & Development

JavaScript | Java (computer programming) | C# | Python (computer programming)

Frameworks & Technologies

Asp.Net / Asp.Net Core | Spring Boot | Node.js | ReactJS | Python Django Web Frameworks

Databases

MySQL | SQL Server
